

Offset Account 101

The Offset Account is a SubAccount in John Martin Reservoir that was created in addition to the the 1980 Operating plan and permanent pool agreement as an avenue for Colorado to make replacements for out of priority depletions and stay in compliance with the Compact.

The Account consists of 6 subaccounts:

- The Colorado Consumable Upstream Account
 - LAWMA Upstream Consumable Account
 - CWPDA Upstream Consumable Account
- The Kansas Consumable Account
- The Colorado Downstream Consumable Account
- The Kansas Charge Account
- The Return Flow Account
- The Return Flow Transit Loss Account

Each operation must come with a description of the source of the water, amount, purpose, time, rate, extent to which it is fully consumable, plus the timing, quantity and location of return flows.

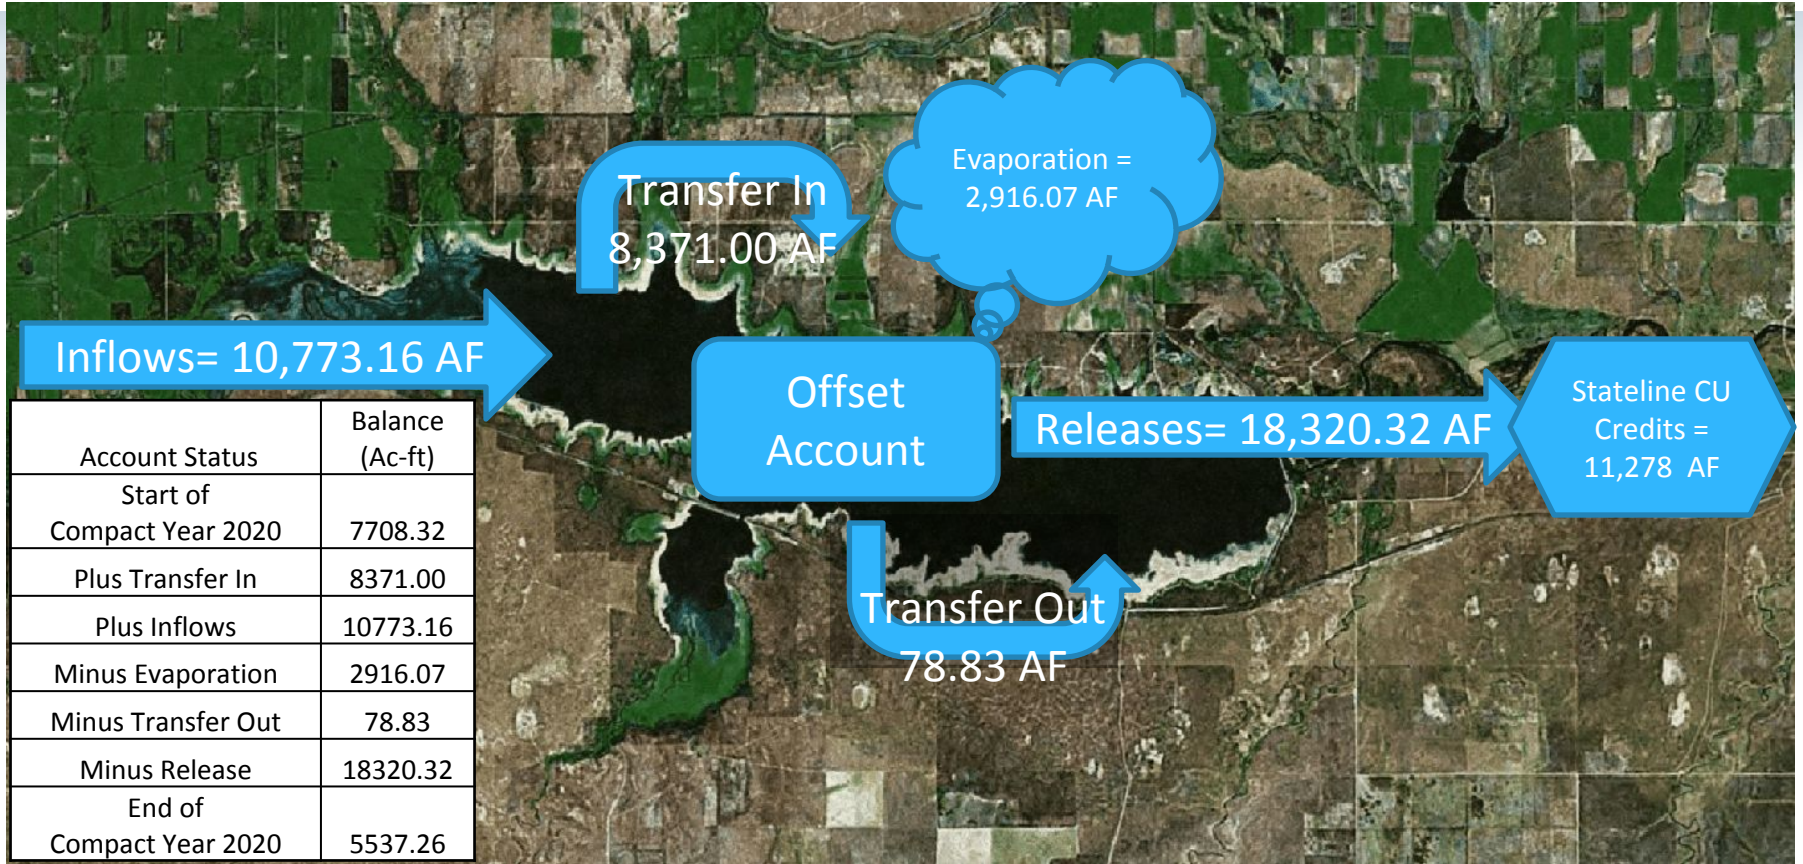

Only water approved by the SEP and deducted for transit loss using the Livingston Model can be stored in the Offset Account.

When "State Line Return Flow" is accumulated in the account Kansas can either have it remain in the Offset Account or be transferred to their Section II account per the 1980 operating agreement.

500 AF Minimum by March 31st for use for the year.

10,000 AF Delivery Limit triggers a 5% storage change on deliveries to Kansas

Arkansas River Compact Administration Resolution No. 2019-01

Regarding John Martin Reservoir Permanent Pool

NOW THEREFORE, BE IT RESOLVED that pursuant to the terms of its 1976 Resolution the Arkansas River Compact Administration hereby approves the use of the Highland Canal water rights, formerly diverted from the Purgatoire River in District 17, as an additional source of water supply for the permanent pool at JMR so long as the States of Colorado and Kansas maintain a written agreement between them which allows such use and sets forth any applicable terms and conditions of that use.

ADOPTED by the Arkansas River Compact Administration at the Special Meeting held telephonically on February 14, 2019.

Highland Minimum Delivery = 5,192 AF
Highland 2019-20 Delivery = 153.08 AF
